Chris provided me with the comments we made before, so I've read these and will re-read to prepare. I am not familiar with the roadless rule, I should read up on that. I'll ask Chris to explain his thoughts on this as well.

Becky,

Good afternoon. Not too many fire drills so far, but I may be missing a few, as David Allnutt hung up on me during the ETPA call this morning. I would be happy to work with you on the Juneau Access SDEIS and provide whatever help I can.

Have you had the chance to familiarize yourself with our previous comments on the project, submitted both on the initial EIS and the 404 PN? Understanding what issues we raised the first time around would be good preparation for review of the upcoming SDEIS.

Do you understand the implications for this project of the recent court decision on the Forest Service' "Roadless Rule?" I am unclear about any implications, but Jen Curtis said that Chris Meade thought that there were. I am just curious whether you have any information about that.

Thanks,

Matthew LaCroix

Importance: High

Hi Matt –

Good morning, hope your week is off to a good start and that your week of acting doesn't come with too many fire drills!

I'm wondering if you'd have the time to help me conduct a good review for Juneau Access. Jennifer has recently warned me that the SDEIS will be published in the next few weeks. I'd like to do the review and write the comments, but then wondered if you'd be able to check my work and advise on anything I may have missed or just didn't provide enough detail on. Do you think you would have time to help in this way? I thought I'd ask for your help first, but if the timing doesn't work out for you, I'll ask Mark or Gayle too.

Thanks,

Becky Fauver

Hi Becky,

I wanted to let you know that the Juneau Access SDEIS is expected to be published in the next 3-4 weeks. It is not clear if there will be a 45- or 60-day review period. Will you be able to look at the aquatic resource-related sections again? I was told that we should have a response to pour comments on the Preliminary SDEIS before the publication of the SDEIS, so that should help focus our review.

Thanks,

Jennifer
